

KATSUYAMA

SUPREME SAKE FOR THE NOBLEMAN  
SINCE 1688

## DIAMOND AKATSUKI

Junmai Daiginjo Enshin-shibori

Nothing was spared in drawing on the latest brewing philosophy, theory, and techniques in order to create the ultimate sake for today's world. Each bottle contains only the essence of Japanese sake, extracted from the rich potential, depth, and beauty of rice to create a "liquid diamond." Every technique and every effort went into this extravagant sake, which exhibits the perfect brightness, clarity, and hardness of a diamond.

■ Alcohol content: 16   ■ Volume: 720ml

### How to enjoy Katsuyama sake

Katsuyama sakes are best chilled ahead of time and drunk in a wine glass.

The greatness of Katsuyama sake cannot be appreciated adequately in ordinary sake cups.

If no wine glass is available, choose a tall, wide glass with thin rim, and fill it about one-third full.

Pour a little at a time so that the temperature does not become too warm while drinking.
